

Insta by Practo moves to SaaS model to improve efficiency

Chennai, Aug 25: Practo's hospital management system, Insta, trusted by 1500+ healthcare centres globally, today announced its transition to SaaS model to drive more value, efficiency, flexibility and scalability for its partner clinics and hospitals.

The development, part of the company's holistic growth and profitability strategy, is expected to impact the topline positively, with a 25% increase in healthcare centres. With this move, the company aims to

improve its integration, enabling timely upgrades and greater ease of use, at 4x lesser costs as compared to conventional IT infrastructures.

Insta's ambitious expansion path includes going deeper into the Middle East and Indian markets by providing for local needs. It will also enable hospitals to improve operational efficiency by 20-25% with minimal revenue leakage.

Post-acquisition in 2015 by Practo, Insta has grown 368% in terms of the number of hospitals

and clinics using the service and is clocking a 25-30% revenue growth year-on-year, over the last two to three years. Due to consistent on-demand service and highly automated systems, the retention rate for the business has been 92% – one of the highest in the industry.

Insta is associated with hospitals like Apollo Health and Lifestyle, Ovum, Bansal, Omni Hospitals in India and Emirates Healthcare, Right Health, Etihad Airways Medical Centre, VPS-

Lifeline, VPS-Lifecare, Valiant Clinic in UAE amongst others.

Speaking on this development, Abhinav Lal, Co-founder and Chief Technology Officer, Practo said, "We remain committed to our goal of balancing growth with profitability. While our consumer business continues to grow, our B2B business is turning profitable. This transition to SaaS is a strategic step in that direction. It helps us anticipate revenues, shorten sales lifecycle, and deepen integration, thus, creating a more predictable ecosystem for both growth and profitability. We are the leaders in the Middle East market and will continue to invest in that market, to grow both market and revenue share. The India market is ripe for SaaS; it provides much-needed agility that healthcare players are looking for, thus, giving us the confidence of further expansion, in a shorter period of time."

Science and related streams preferred choice of TN students

Chennai, Aug 25: Recent insights released by CollegeDekho.com, India's largest students counselling and admissions platform, on college admissions in Tamil Nadu revealed that the state is a popular destination for college admissions among students residing in the other Southern states of India. This showcases Tamil Nadu's rich higher education ecosystem and the popularity of its universities and colleges. The company's CEO and Co-Founder Ruchir Arora said that students from the state used CollegeDekho's website more than 82 lakh times in 2021 to seek

information on all higher education-related queries. CollegeDekho.com's Common Application Form (CAF) enables students to apply to 1500+ colleges with the click of a single button and their website has details on 35000+ unique colleges that offer information on admissions, entrance tests, infrastructure, courses and careers.

Ruchir mentioned that CollegeDekho.com has information on around 2500 universities in Tamil Nadu and since 2015, has counselled more than 4.9 lakh students from the state to help them

make informed career decisions. There was also a 50% increase in the student's queries for studying abroad on CollegeDekho's platform in the year 2021 as compared to the previous year with the USA, UK, Canada, Australia, Germany and New Zealand being the most preferred destinations.

According to the All-India Survey on Higher Education (AISHE) for 2019-20, Tamil Nadu has reaped the benefits of opening colleges in even the most remote areas, with a gross enrolment ratio (GER) of 51.4%

which is nearly twice the national average. Ruchir Arora, CEO and Co-Founder, CollegeDekho said, "CollegeDekho began with the vision to institutionalise college counselling in India. Tamil Nadu's progressive student enrollment rate and large base of colleges which relies on traditional forms of admissions, offers a massive opportunity for technology-backed services like us to transform the state's higher education space by making the entire admission process easier and more convenient. We are committed to creating an enriching higher education experience for the students where they are provided with all the necessary tools to make the right admission choices, secure loans and become job-ready with skill-based e-learning courses. We feel proud to have already helped numerous students in the state make informed career choices by simplifying the college discoverability and admission process."

CollegeDekho.com's research revealed that in terms of outbound migration, states like Maharashtra, Karnataka, Telangana, Punjab, Haryana and Rajasthan are preferred destinations for students from Tamil Nadu. These migrating students are drawn to programmes in Engineering, Science, Commerce & Banking, Management and Information Technology when searching for higher education options outside Tamil Nadu.
